

The East Asian Development Network (EADN) will hold its 2015/2016 Annual Forum on 1-2 June 2016 at The Marco Polo Hotel, Ortigas Center, Pasig City, Philippines. Participants from member-institutions, research grantees and their mentors, and representatives from the Global Development Network (GDN) are expected to attend this annual event.

The annual forum will provide the new batch of EADN research grantees the opportunity to present the latest development in their research projects and discuss it with fellow researchers within the network. Updates about the EADN and its activities and the GDN will also be discussed.
